

Physics

- Work to do on SDD
 - Investigate question.
 - Find at least 3 sources of information on your topic.
 - Start updating your **OneNote page that Mr. Battaglia** (if you have him) will create for your research.
 - Start updating your **Google Docs for Mr. Trombley**. This is where you will post all your sources, links, handouts, etc.
 - Figure out enough of the science that you can start designing your experiment.
 - Consider what will be required materials, location(s), etc.
- First conference goals:
 - Identify all variables involved.
 - What will your experiment look like? Do you need any special equipment?
 - Have a general understanding about science that your question is involved in.
 - Have questions for Mr. Battaglia/Mr. Trombley
